Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 08 July 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

1. This office action is in response to applicant's amendment filed 7/8/03, wherein claims 1 and 7 were amended; and claim 3 was canceled. Claims 1-2 and 4-15 remain pending in the application with claims 6 and 9-15 remaining withdrawn from consideration as being drawn to a non-elected invention.

Drawings

2. The proposed drawing corrections filed 7/8/03 have been approved.
3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "transport mechanism" (claim 1) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-2, 4-5, and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 307,509, hereinafter EP '509, as set forth in paragraph 10 of paper number 9 and further including, for example:

a transport mechanism (120) capable of moving the wafer from the support a grinding apparatus if ... removed.

6. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over EP '509.

EP '509 discloses a first predetermined distance but is silent as to the specific distance of 0.5 mm from the edge of the wafer when the wafer is placed on the support. However, it would have been obvious to one having ordinary skill in the art at the time the invention was made to use the predetermined distance of 0.5 mm in order to facilitate the sensor's ability to sense based on the tolerances of the sensor, because it has been held that discovering an optimum value of a result effective variable involves only routine skill in the art.

Response to Arguments

7. Applicant's arguments filed 7/8/03 have been fully considered but they are not persuasive.

Applicant contends that EP '509 discloses an apparatus for removing tape from a thin article not necessarily wafers and then further processing the wafer by a backgrinder. However, to be clear it should be noted that on column 1, lines 5-10, it discloses that the device of EP '509 is intended to be used with wafers. As to the backgrinder it should be noted that the claims do not positively set forth any backgrinder as part of the invention and the phrase "a transport mechanism for moving the wafer from support to a grinding apparatus if the portion of the protective tape on the wafer is properly removed" only requires that there be a transport mechanism capable of the above intended use/functional language.

Art Unit: 3724

8. For the reasons above, the grounds of rejection are deemed proper.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
